

YANMAR STANDARD ACCESSORIES

FUEL SYSTEMS

PART NAME	IMAGE	DESCRIPTION
#4120 Yanmar/Racor Primary Fuel Filter / Water Separator		Assembly Part # 4120. Replacement Element # 4120-012. Fuel Flow Rate 3.8 - 56L/H. Suits: - 1GM10, 2YM15, 3YM20, 3YM30 - Mase IS2.5, IS3.5, IS5.0 * Includes 30 Micron Filter
#4230 B Yanmar/Racor Primary Fuel Filter/Water Separator		Assembly Part # 4230B. Replacement Element # 4230-0100 Fuel Flow Rate 56-112 L/H. Suits: - All JH3 & JH4 Engine Models Mase IS 6.5 to IS27 * Includes 30 Micron Filter & Fuel Priming Pump
#4412 Yanmar/Racor Primary Fuel Filter Water Separator		Assembly Part # 4412. Replacement Element # 4412-012. Fuel Flow Rate 112-449 L/H Suits: - All 4LH & 6LP Series *Includes 30 Micron Filter
Racor 900MA Primary Fuel Filter/Water Separator		Assembly Part # Racor 900MA. Fuel Flow Rate 341L/H. The legendary Turbine Series is a fixture whenever engines demand the confidence of heavy duty, high capacity water separation and fuel filtration. Racor 900MA Features- See-thru bowl- Heat deflector shield* Includes 30 micron filter*N.B - For survey applications metal bowl needs to be specified in lieu of glass at the time of order
Racor 1000MA Fuel Filter		Assembly Part # Racor 1000MA. Fuel Flow Rate 681 L/H. Suits 6HY/6KY Series. Racor Marine 1000MA system is the Racor Turbine Series and it's fuel filter and water separation are the most reliable engine protection you can install. The legendary Turbine Series is a fixture whenever engines demand the confidence of heavy duty, high capacity water separation and fuel filtration. *N.B - For survey applications metal bowl needs to be specified in lieu of glass
