I'm Really Glad That We Spent More And Fitted Yanmar

CJH boat builder Chris Headley stepped outside conventional design parameters to create the CJH 26 Sportsfisher... a 26 footer, sports fishing machine with dual shaft drive diesel engines that meets 2C Survey.

"I researched this project for years and knew that the key to success would be the engines. All the feedback that I got pointed to Yanmar. Yanmar is the brand of choice amongst professional fishermen and serious pleasure boat owners.

The Yanmar 4BY2-180A engines are really compact. The combined power pops the 3.4 tonne boat up onto the plane quickly and can then be throttled back for an easy cruise speed of 24 knots, at 3200 rpm with fuel consumption of 21 litres per engine per hour.

I'm really glad we chose Yanmar for the CJH 26 Sportsfisher. The extra cost has been more than justified and is quickly forgotten when you hit the throttles. "

Chris Headley - CJH Yachts

Yanmar 4BY2 Series

110kW (150mhp) - 132kW (180mhp)

- Low noise, low vibration and typical Yanmar reliability
- Class leading fuel economy
- CAN Bus Electronic Controls
- NMEA 2000 compatible instrumentation
- Dual Overhead Camshaft
- Common Rail Fuel System Technology
- Sold and serviced by Australia's largest selling brand of diesel engine
